

Admissions Policy

Introduction

This policy sets out the admissions arrangements for students to The Wings College (post 16) and The Wings Academy (under 16). It reflects the commitment of Wings South West (Wings) to promoting equality regardless of gender, disability, religion and belief, race and ethnicity or sexual orientation.

An assessment will be made by the Inclusion Officer(s) of a potential student's needs and whether these can be met by a placement within Wings. Priority will be given to students who are permanently or temporarily excluded from Mainstream Education, Looked After Children (LAC), Previously Looked After Children (PLAC), Children Missing in Education (CME), students with an Education, Health and Care Plan (EHCP) and those who are otherwise unable to access mainstream education e.g., due to physical or mental health difficulties.

Numbers of students to be admitted in each Key Stage will be agreed by the CEO, Academy Lead and College Lead, and ratified by Trustees. Numbers will be dependent on overall students' needs.

All admissions comply with the relevant legislation and Government Guidance on Alternative Provision (Jan 2013).

Parents or carers of students aged 16+ wishing to explore Wings College for their educational provision should in the first instance contact the College through the Wings website to express their interest via the admissions form.

Admissions Process

- Once a referral is made, the Academy Lead and/or the College Lead (with reference to the CEO) will carry out a risk assessment and will ascertain whether Wings can meet the student's needs. Where the student has an EHCP, an up-to-date review from the referring agency will be used in the assessment.
- If there are places available and the student is able to access the curriculum, the student with parents or carers will attend an induction meeting. Relevant policies and procedures governing the provision will be outlined, and the student will be admitted.

Referrals

Entry into Wings' provision will be by the following methods and is contingent upon the agreement of the Trustees and the Inclusion Lead(s):

College (15 hours per week)

- The Local Authority (LA) refers students who have requested to have Wings post 16 provision as their main education. These students are enrolled with Petroc.
- Petroc college refers students who require the tailored package offered by Wings. These students are enrolled with Petroc.
- The Virtual School refers Looked After Children and Previously Looked After Children (LAC and PLAC) who require a tailored package offered by Wings. These students are enrolled with Wings under the authority of Devon County Council.

Academy (15 hours per week)

- The Local Authority (LA) refers students who are either permanently or temporarily excluded from mainstream education. Students who are excluded temporarily will remain on roll with their sending schools. Students who are permanently excluded will be enrolled with the Wave Academy (or other Pupil Referral Unit commissioned by the LA).
- The Virtual School refers students (LAC and PLAC) who require a tailored package offered by Wings. These students are enrolled with Wings under the authority of Devon County Council.

When Wings Provision is full

- If the setting meets the student's needs but is full, the student will be placed on a waiting list, or found another setting by the referring agency. When allocating places, the aforementioned priorities will be adhered to.
- If the student's needs are such that they cannot access the curriculum, the CEO will be consulted and reasons for the decision not to admit will be clearly communicated to the student, parents or carers and the referring agency.

Responsibilities of the Referring Agency:**The Referring Agency will:**

- agree entry strategies for the student with Wings South West;
- share all relevant safeguarding information and behaviour logs for the student with Wings before the student starts;
- agree entry strategies with those holding responsibility for the student, for example parents or carers;

Responsibilities of Parents/Carers**Parents/carers will:**

- ensure that their child attends the provision regularly, on time and appropriately dressed (as agreed where relevant with their schools);
- notify Wings promptly of reasons for absence;
- contribute to, maintain awareness of and support achievable targets for their child, including agreeing to work with relevant professionals;
- attend review meetings about the progress of their child;
- maintain good communication with the centre regarding changes in their child's behaviour that could impact their learning;
- support Wings' policies and guidelines for behaviour;
- communicate with the provision and its staff in a respectful way;
- develop a positive working relationship with Wings by contacting us directly to share concerns (email or telephone) rather than using social media;
- comment only appropriately and constructively about Wings South West on social media, without naming members of staff;
- talk to their child about their life at the provision;
- make Wings aware of any concerns or problems that might affect the child's learning or behaviour;
- pay costs for any damage or losses to Wings' property caused by culpable behaviour on the part of themselves or their child;

Students with SEND

Before students with an Education & Health Care Plan (EHCP) are admitted to either the College or the Academy, they must be subject to an interim review by the referring agency (unless they are permanently excluded from a school). The purpose of the review will be to determine any changing needs of the pupil and inform the EHCP. The Local Authority should agree to the change of provision, and it should be reflected in the EHCP.

Looked After Children

Where students are subject to multi agency involvement at Child in Need (CHiN/CIN) or Child Protection (CP) levels, referring agencies, Wings, LA officers and other agencies involved must attend regular review meetings.

Transition

Wings will assist in determining transition for the student based on consultation with the student concerned, the referring agency or school, LA officer, pupil, parent/carer and appropriate staff.

Students from the Academy may transition to the College, to Petroc or other FE colleges or to paid employment.

Students from the College will benefit from training in employability skills and from appropriate work placements and the College will aim to assist students into paid employment.
